

#### Jason Yuen

- Grammar issue in title "it's vs its"
- Places defenders in the light blue, facing towards the spawn lane
- Placed wall boat backwards
- Boat still held on pause menu
- **Still not realizing you can place boats in the dark blue**
- The random spawning confused him -- not sure if the enemies are going to actually show up
- Took a bit to realize that a tower of his died
- Actually making it to the later stages of play in this game
- **At this point, he probably does not know you can scroll**
- Suggestion: highlight entire placeable region
- Suggestion: pity timer / maximum amount of time before a money crab spawns

#### Connor Tincher

- Pretty intuitive (let's see if he places on the blue)
- **Barely noticed that you can scroll the boats**
- **Realized by mistake that you can place in dark blue**
- Game starts off pretty slow (not necessarily a bad thing)
- Not sure how he feels about difficulty
- Effectively using the walls as blockers for heavy boats
- Building a "wall" of ships around the base
- He's actually doing really well.
- 45,000 score and full health still, look at him go.
- Only using two basic boats though, might want to use more advanced one
- Has his PvZ skills down!

#### David Lee

- Went for the instructions
- **PLACED ON THE DARK BLUE. IMMEDIATELY**
- Trying out both boats
- Recognizing enemy ships as they appear, and their gimmicks
- **Did not realize that you can scroll the menu**
- Money defender -- it's a farm
- Kept spamming the basic units
  - (we probably need to sell the more advanced ones a bit more -- make people want to take the risk and try them)
- Likes the UI / game in general
- Instructions effectively communicate placement

#### Hannah Spirakis

- Likes the visuals -- give off a battleship vibe
  - (I'll take what I can get, MICHAEL, but also probably where I was inspired from)
- Likes the highlight visuals for placement / range

- Enjoys the speed of the game
- Doing the surround the base with boats strategy
- **Did not realize you could place boats in the dark blue**
- Enjoys the visual feedback & graphics (oh get ready to learn about the scroll menu)
- (Oh yeah go break her heart Michael)
- **There it is. She didn't realize the side bar was a scroll menu**
  - (time to give back that compliment)
- Asked about score
- "Very put together"
